Fulani

OSMAN SHAW

software developer

I am a dedicated front-end developer with a passion for crafting engaging and user-friendly web applications and websites. My journey in the world of technology began with a strong educational foundation in Business Information Technology from IPMC College of Technology and a Diploma in Computing from NCC Education and currently pursuing a degree from the University of Greenwich. I am committed to continuous learning and staying updated with the latest industry trends.

My career path has led me to diverse roles, including Data Analyst, Retail Forex, Stock Trader, and Software Development. In these roles, I have honed my skills in software development, prototyping, and database administration, allowing me to approach web development with a well-rounded perspective.

I take pride in my ability to communicate effectively in English, Krio, and Fulani, and my Sierra Leonean background has instilled in me a strong work ethic and cultural awareness.

My technical skill set includes proficiency in HTML, CSS, JavaScript, and WordPress for front-end development. I am also well-versed in React, Node.js, and Express for building dynamic web applications. Git is my version control tool of choice, ensuring efficient collaboration and code management. Additionally, I have experience with database technologies such as MySQL, Oracle, and MongoDB, and I am skilled in data analysis using Excel and Power BI. My proficiency in Axure aids in prototyping and wireframing user-centric designs.

I am looking forward to contributing my technical expertise and passion for web development to a dynamic team, leveraging my skills to create impactful web solutions and drive user engagement.

Thank you for considering my application.

Technologies

HTML, CSS, JAVASCRIPT, Wordpress

React, Nodejs, Express, Git

MySQL, Oracle database,

MongoDB, Excel, Power BI, Axure
